

9:00	Welcome and Coffee & Tea!
9:15	Keynote: Spatial and Temporal Reasoning with LLMs for Natural Language Comprehension and Grounding <i>Parisa Kordjamshidi (Michigan State University, USA)</i>
10:30	Coffee & Tea Break
11:00	Invited Paper: Scalable Coupling of Deep Learning with Logical Reasoning <i>Marianne Defresne (University of Toulouse, France + Toulouse Biotechnology Institute, France)</i> <i>Sophie Barbe (Toulouse Biotechnology Institute, France)</i> <i>Thomas Schiex (University of Toulouse, France)</i>
11:15	Invited Paper: TBA <i>TBA</i>
11:30	Geographical Cellular Traffic Prediction with Multivariate Spatio-Temporal Modeling <i>ChungYi Lin (National Taiwan University, Taiwan + Chunghwa Telecom laboratories, Taiwan)</i> <i>Shen-Lung Tung (Chunghwa Telecom laboratories, Taiwan)</i> <i>Winston H. Hsu (National Taiwan University, Taiwan)</i>
12:00	Geospatial Prediction Using Road Topology: A Graph-based Perspective <i>Yameng Guo (Ghent University, Belgium)</i> <i>Sepepe vanden Broucke (Ghent University, Belgium + KU Leuven, Belgium)</i>
12:30	Lunch Break
14:00	Keynote: Advancing Efficient Large-Scale Constraint Optimization Problem Solving by Integrating Machine Learning and Automated Reasoning <i>Shufeng Kong (Sun Yat-sen University, Guangzhou, China + Cornell University, USA)</i>
15:15	Exploring the Impact of Disentangling Extraction and Reasoning in Multi-hop Spatial Reasoning <i>Roshanak Mirzaee (Michigan State University, USA)</i> <i>Parisa Kordjamshidi (Michigan State University, USA)</i>
15:30	Coffee & Tea Break
16:00	An Evolutionary Geospatial Regression Tree <i>Margot Geerts (KU Leuven, Belgium)</i> <i>Sepepe vanden Broucke (Ghent University, Belgium + KU Leuven, Belgium)</i> <i>Jochen De Weerd (KU Leuven, Belgium)</i>
16:30	Listening Style-Aware Dyadic Facial Motion Generation <i>Gourav Datta (University of Southern California, Los Angeles, USA)</i> <i>Boshi Huang (Amazon Alexa AI, Sunnyvale, USA)</i> <i>Nitesh Sekhar (Amazon Alexa AI, Sunnyvale, USA)</i> <i>Vivek Yadav (Amazon Alexa AI, Sunnyvale, USA)</i> <i>Shih-Yao Lin (Amazon Alexa AI, Sunnyvale, USA)</i> <i>Ayush Jaiswal (Amazon Alexa AI, Sunnyvale, USA)</i> <i>Prateek Singhal (Amazon Alexa AI, Sunnyvale, USA)</i>
17:00	On Neuro-Symbolic Challenges in Directional Relation Prediction <i>Junjie Peng (Southwest Jiaotong University, China)</i> <i>Michael Sioutis (University of Montpellier, France)</i> <i>Zhiguo Long (Southwest Jiaotong University, China)</i>
17:30	Joint Discussion and Final Remarks
